

NSA Family,

*If you were part of our dismissal process today, please accept my apology for the experience. I want to tell you what happened and what we are going to do to correct it.

1) The carline is SINGLE LANE IN, SINGLE LANE OUT. Today we had some cars create a double lane in, which blocked cars from leaving. This was the greatest cause of delay.

2) Cars picking up from STEM HS (which dismisses at 3:30) arrived too early and parked along the curb in front of their school. This greatly reduces room for NSA traffic to flow in/out.

I've already spoken with STEM leadership and they have agreed to ask parents to delay their arrival until at least 3:15.

Thanks to everyone that followed the procedures detailed in my YouTube video. Please do not judge the future based on today's experience. It's going to get better!!

Have a good night -

Dr. Thomas
